EAG Project Review Meeting Rescheduled

The initial EAG meeting on Project Review has been postponed until 6 December. This postponement was required because one office submission had not been received and the capacities for ODP major computer services have not been determined. This meeting will be an overview of the total requirements surfaced by the projected FY-78 requirements for our major projects. [REDACTED]

Study Completed on OER Requirements

STATINTL

[REDACTED] gave a final briefing on their study of OER requirements and alternatives to satisfy these requirements. The key results are that APL is the correct language for OER to use, OER analysts are undertrained in the use of APL, OER does not receive adequate technical support in their use of APL, and machine resources are needed. The recommendations were for training and providing increased resources such as to produce acceptable response time to OER. [REDACTED]
